

- Effortless and safe connection to light fittings for testing insulation, continuity, loop, and polarity.
- Versatile range of adaptors included for Bayonet, Small Bayonet, GU10, Edison Screw and Small Edison Screw fittings.
- The fastest way to check insulation/continuity/loop/polarity
- High quality low Ohm 4mm connectors
- Allows the light fitting to remain in place
- No broken connections as a result of testing
- Time-saving and safe
- Allows hands free testing
- Includes test leads

### Description

Introducing the Socket & See LTKIT10, your solution for effortless and secure connection to light fittings when conducting insulation, continuity, loop, and polarity tests.

This kit offers a comprehensive range of adaptors designed to fit various types of light fittings, including Bayonet, Small Bayonet, GU10, Edison Screw, and Small Edison Screw. With these adaptors, you can perform tests without the hassle of removing the light fitting, minimizing the risk of damaging connections or surrounding decorations. Additionally, these adaptors enable convenient hands-free testing, ensuring a smooth and efficient process.

The package includes a 120cm 4mm lead set, allowing you to easily connect to your tester. All the components are neatly organized in a soft pouch, providing a compact and portable solution for your testing needs.

### Specifications

Boxed Dimensions (mm):	243 x 85 x 43
Boxed weight (g):	244g

### Socket & See Single Function Testers

PDL234 PLUS Loop Testing Kit  
PDL PRO High Resolution Loop Tester  
IRC PRO Insulation and Continuity Tester

### Socket & See Accessories

CB400 Non-Trip Checkbox
